July 15TH,
St. Bonaventure,
Bishop & Doctor

Today's saint was a person exceptionally gifted in soul, intellect and personality. Born in north Italy around 1218, he was early attracted by the Franciscan ideal. An outstanding student, then a professor at the University of Paris, he taught and wrote profoundly about theology and philosophy. Bonaventure, elected Minister General of the Franciscan Order, was named Cardinal of Albano in 1273. He took part in the Second Ecumenical Council of Lyons-which arranged a short-lived union of the Greek and Latin Churches-and died in Lyons, France, in 1274.

Pro-Life Corner:

July 20 – "The real question today is not when human life begins, but, what is the value of human life? The abortionist who reassembles the arms and legs of a tiny baby to make sure all its parts have been torn from its mother's body can hardly doubt whether it is a human being. The real question for him and for all of us is whether that tiny human life has a God-given right to be protected by the law—the same right we have." Ronald Reagan
